The Training of a Knight

The novel provides a detailed account of the arduous training regimen that knights underwent. This process, known as "chivalry," was a rigorous physical and moral education designed to prepare young men for a life of service and warfare. The following table outlines the key stages of this process:

Stage	Description
Page	A young boy, often from a noble family, would serve as a page, learning basic skills like reading, writing, and etiquette.
Squire	A page would progress to a squire, assisting a knight in their daily duties, learning martial arts, and gaining experience in the ways of war.
Knight	After a period of training, a squire could be knighted, formally recognized as a warrior, and granted the rights and responsibilities of a knight.

The Knight's Code of Conduct: The code of chivalry, also known as the "code of arms," outlined the ethical principles that knights were expected to uphold. Some key tenets of chivalry included:
