9	Where can I find information on setting up specific sensors (e.g., door/window sensors, motion detectors)?	The user manual will have a dedicated section for sensor installation and pairing. It will guide you through the process of placing the sensors, testing their functionality, and connecting them to the main alarm hub.
10	What troubleshooting steps should I take if my GSM alarm system is not responding?	First, check the power supply and SIM card connection. Restart the main unit.
