This stability makes PDFs particularly suitable for long-form learning materials and reference documents.

Why PDFs are widely used in education

One of the main reasons PDFs are popular in education is their universal accessibility. Most devices include built-in PDF readers, eliminating the need for additional software. This convenience allows learners to focus on content rather than technical setup. For materials like Journal Of Global Business And Technology, ease of access reduces barriers to learning and encourages consistent usage.

PDFs also support offline access, which is essential in environments with limited or unreliable internet connectivity. Students can download educational PDFs once and continue learning without constant online access, making PDFs practical for a wide range of learning contexts.
