Dreaming of Business Class? How to Get Upgraded (Without Breaking the Bank)

There's a certain allure to business class. The lie-flat seats, the

gourmet meals, the premium champagne, the dedicated service – it's the epitome of comfortable, luxurious travel. For many, it feels like a distant dream, reserved for the ultra-wealthy or incredibly lucky. But what if I told you that with a bit of insider knowledge and strategic planning, you might just be able to snag that coveted business class seat without paying the full, eye-watering price? It's not a guarantee, of course. Airlines are businesses, and upgrades are often a way to fill premium cabins when they aren't selling at full price. However, by understanding how airlines operate and employing a few clever tactics, your chances of a complimentary or significantly discounted business class upgrade can skyrocket. This isn't about magical shortcuts; it's about smart travel. So, let's dive into the world of airline upgrades and explore how you can elevate your next journey.

The "How" and "Why" of Airline Upgrades

Before we get into the nitty-gritty, let's understand why airlines offer upgrades. Primarily, it's about maximizing revenue and minimizing losses. If a business class seat isn't sold by a certain point, it's essentially empty revenue. Airlines would rather give it away to a loyal customer or a paying passenger in a lower cabin than leave it vacant. This is where you come in! They also use upgrades as a powerful loyalty tool. Rewarding frequent flyers with a taste of luxury encourages them to continue flying with the same airline and its partners. So, understanding this

dynamic is the first step to your business class adventure.

Unlocking the Power of Frequent Flyer Programs

This is, without a doubt, the most reliable and sustainable way to get upgraded to business class. Building your frequent flyer miles and status should be your top priority if business class travel is a serious goal.

Earning Miles: Beyond Just Flying

Sign Up for Loyalty Programs

This might seem obvious, but if you're not a member of your preferred airline's frequent flyer program (and its partner airlines), you're missing out. Sign up for every airline alliance program you can, but focus your efforts on one or two primary programs to maximize your benefits.

Strategic Credit Card Usage

Airline-branded credit cards and general travel rewards credit cards are game-changers. Many offer significant sign-up bonuses that can quickly get you a substantial chunk of miles. Beyond the bonus, strategically using these cards for everyday purchases can significantly accelerate your mile accumulation.

Look for cards with bonus categories that align with your spending habits (e.g., groceries, dining, travel).

Shopping Portals and Dining Programs

Most frequent flyer programs have online shopping portals. By clicking through these portals before making online purchases with participating retailers, you can earn extra miles on top of your credit card rewards. Similarly, dining programs allow you to earn miles by linking your credit card to restaurants.

Leveraging Partner Airlines

Remember that airlines often belong to alliances (Star Alliance, Oneworld, SkyTeam). This means you can earn and redeem miles on partner airlines. If your target airline doesn't have a direct flight or a competitive route, check if a partner airline does, and see if you can still earn miles or use them for an upgrade on that flight.

Achieving Elite Status: The Golden Ticket

Understanding Elite Tiers

Frequent flyer programs have elite tiers (e.g., Silver, Gold, Platinum). As you fly more and earn more qualifying miles or segments, you'll reach higher tiers. Each tier comes with increasing benefits, and complimentary upgrades are often a

perk of mid-to-high tier members.

How to Earn Elite Status

Elite status is typically earned through a combination of flown miles/segments and spending. Airlines want to reward their most valuable customers. Focus on flying with your chosen airline or its partners, and consider taking advantage of promotions that offer bonus miles or status credits.

The Magic of Elite Upgrade Privileges

Once you have elite status, you'll often be placed on an upgrade waitlist for a complimentary upgrade to business class when flying in economy. The higher your elite status, the higher you'll be on that list. This is a fantastic way to get upgraded, especially on flights that aren't completely full.

When to Ask (and How to Ask!) for an Upgrade

While miles and status are king, sometimes a well-timed, polite request can work wonders, especially in specific situations.

The Art of the Polite Inquiry

At the Check-In Counter

This is probably the most common place people ask. Be polite, friendly, and patient. If the agent seems stressed or busy, it might not be the best time. Dress nicely (more on this later) and mention if you're celebrating a special occasion. A simple, "Is there any possibility of an upgrade to business class today? I'm celebrating my anniversary," can sometimes open doors.

At the Gate

If you didn't get an upgrade at check-in, you can try the gate agent. Again, politeness is key. They are often the last line of defense before the plane doors close.

Through Customer Service

If you have a complaint about a previous flight or a special circumstance (e.g., a significant delay), you can sometimes leverage customer service to request an upgrade. Frame it as compensation for inconvenience.

Timing is Everything

The "Not Full" Flight Factor

Airlines are most likely to upgrade passengers when a flight is oversold in economy or undersold in business class. This is

particularly true on flights that are not heavily booked in premium cabins.

The Last Minute Decision

Often, upgrade decisions are made close to departure. If the flight isn't full, and there are empty business class seats, the gate agents or check-in staff might have the discretion to upgrade someone.

The "Secret Sauce": How to Increase Your Odds

Beyond miles and asking, there are several less obvious strategies that can subtly nudge the odds in your favor.

Dress the Part: Look the Business

While it's not a rule, many airline staff admit that passengers who are well-dressed are more likely to be considered for an upgrade. Think smart casual at a minimum. Appearing professional and put-together suggests you might be a business traveler, or at least someone who would appreciate and respect the premium cabin. Avoid ripped jeans, flip-flops, and overly casual attire.

Be a Loyal (and Polite) Customer

This ties back to frequent flyer programs, but it's also about your overall demeanor. Airline staff deal with demanding passengers all day. Being consistently polite, patient, and understanding, even when things go wrong, can make a significant difference. If they recognize you as a pleasant traveler, they might be more inclined to go the extra mile for you.

Travel Solo

It's often easier to upgrade a single passenger than a couple or a family. If there's only one empty business class seat, a solo traveler is more likely to get it than someone traveling with others who would then need multiple seats.

Be Flexible with Your Flight

If you have flexibility in your travel dates or times, you might be able to snag an upgrade on a less popular flight. Mid-week flights or red-eyes are sometimes less full, increasing the chances of available premium seats.

The Power of a Special Occasion

Mentioning a special occasion like an anniversary, birthday, or honeymoon can sometimes sway an agent. While not a guaranteed upgrade, it's a lovely touch that can make them look

favorably upon your request.

When an Upgrade Isn't Complimentary: Paid Upgrades

Sometimes, the free upgrade just isn't in the cards. However, airlines often offer discounted paid upgrades, which can still be a fantastic deal compared to booking business class outright.

Monitoring Your Booking for Offers

After you book your economy ticket, keep an eye on your reservation. Airlines frequently send out emails with "upgrade offers" or "bid to upgrade" opportunities. These are usually for a fixed price. If the price is reasonable for you, it can be a great way to experience business class.

The "Bid to Upgrade" Auctions

Some airlines have an auction system where you can place a bid for an upgrade. Research the typical winning bids for your route to get a sense of how much to bid. Don't overbid, but also don't bid too low and expect to win.

Last-Minute Deals at the Airport

Occasionally, if the flight is significantly undersold in business class, you might be offered a last-minute paid upgrade at the

gate or check-in counter. This is less common but can happen.

Things to Avoid When Seeking an Upgrade

Just as there are strategies that help, there are also actions that can hinder your chances.

Don't Be Entitled or Demanding

This is the fastest way to get nowhere. Airlines are not obligated to upgrade you. Your request should always be a polite question, not a demand.

Don't Lie About Special Occasions

While mentioning a special occasion can help, fabricating one will likely backfire if discovered and will definitely erode any goodwill you've built.

Don't Expect an Upgrade on Every Flight

Upgrades are a bonus, not a right. Manage your expectations. You won't get upgraded every time, and that's okay. Focus on enjoying the journey you've booked.

Don't Bribe or Offer Money Directly

Attempting to bribe airline staff is unethical and illegal. Stick to the legitimate methods discussed.

The Takeaway: Patience, Strategy, and a Little Bit of Luck

Getting upgraded to business class is a combination of being a smart traveler, a loyal customer, and sometimes, being in the right place at the right time. Focus on building your frequent flyer miles and status, always be polite and professional, and keep an eye out for discounted paid upgrade opportunities. While there's no guaranteed formula, by implementing these strategies, you'll significantly increase your chances of enjoying that lie-flat seat, gourmet meal, and unparalleled service on your next flight. Happy travels, and may your next journey be a little bit more luxurious!

How to Get Upgraded to Business Class: A Strategic Guide

Upgrading to business class is more than just a luxury—it's a tangible reward for loyalty, demand, and the right positioning within a carrier's premium travel ecosystem. Whether you're a frequent flyer or a first-timer seeking elite status, understanding the pathways to business class can transform your flying experience. This guide explores how to maximize your chances of upgrade, offering insight into elite programs, key earning

patterns, and evolving trends shaping premium travel.

Understanding the Ecosystem of Business Class Upgrades

Business class availability and upgrade opportunities are not uniform across airlines or routes. They are governed by a combination of loyalty tiers, dynamic allocation, and operational demand. Typically, elite status—earned through miles or direct spending—unlocks priority boarding, lounge access, and most importantly, upgrade eligibility. However, status alone does not guarantee a seat upgrade; airlines use real-time data to balance supply, passenger needs, and flight profitability. Frequent flyer programs like Delta SkyMiles, American AAdvantage, or Emirates Skywards play a central role, as they track your travel behavior and reward consistent use with elite benefits. Beyond loyalty programs, some carriers reserve premium seats for passengers with high fare classes flown, particularly on long-haul international flights where business class is in limited supply. Airlines also monitor booking patterns, offering upgrades to travelers with flexible itineraries or last-minute bookings, especially during peak travel periods. Understanding this nuanced environment helps set realistic expectations and guides smarter travel planning.

Key Strategies to Maximize Upgrade Opportunities

To stand out and increase your chances of an upgrade, a proactive approach is essential. Begin by consistently earning and redeeming miles to maintain or climb your elite tier—many programs offer tier promotions after reaching a threshold, such as accumulating 75,000 miles or spending a minimum amount in a year. Prioritize flights booked on partner airlines within the same alliance, as shared inventory systems often prioritize elite members across carriers, expanding your access to coveted seats. Track your bookings closely using airline-specific tools or third-party loyalty apps to monitor availability and anticipate upgrade windows. Some travelers strategically book award tickets with minimal advance purchase dates, as airlines tend to allocate upgrades more readily to last-minute award travelers. Additionally, maintaining a balanced mix of short and long-haul flights can keep your profile active—short flights may not trigger upgrade considerations, while extended journeys signal serious intent. Engage with customer service when appropriate; many upgrades are secured through direct communication rather than automated systems. A polite inquiry about availability, especially when booking last-minute or during high demand, can tip the scales. Airlines appreciate transparency, and personalized service often leads to better outcomes than automated requests.

The Value and Benefits of Business Class Upgrades

The benefits of business class extend far beyond comfort. A premium cabin offers spacious seating, direct aisle access, enhanced in-flight service, and access to exclusive lounges—all designed to reduce travel fatigue and improve productivity or relaxation. For business travelers, premium amenities support virtual meetings, restful sleep, and seamless connections, often turning long-haul flights into effective extensions of the office. Leisure travelers gain the luxury of comfort, privacy, and the ability to arrive refreshed and ready to explore. Beyond personal enjoyment, upgrades enhance travel efficiency. Priority security lanes, dedicated boarding, and flexible change policies reduce stress and streamline itineraries. Airlines increasingly recognize that upgraded passengers generate higher lifetime value, driving carriers to refine their upgrade programs and invest in superior experiences.

Looking Ahead: The Future of Business Class Access and Premium Travel

The aviation industry is evolving, and so are the pathways to business class. With rising competition and shifting traveler expectations, airlines are experimenting with more flexible upgrade models. Dynamic pricing for upgrades—where

availability adjusts in real time based on demand—may become more common, offering greater transparency and fairness. Some carriers are introducing “universal upgrades” for elite members across their network, reducing reliance on flight-specific inventory and simplifying access. Sustainability is also influencing premium offerings. As airlines invest in greener fleets and carbon offset programs, elite passengers may gain access to eco-conscious upgrades, such as carbon-neutral award flights or priority boarding on newer, more efficient aircraft. Meanwhile, digital innovation—like biometric boarding and AI-driven service personalization—promises smoother, faster upgrade experiences. Ultimately, upgrading to business class remains a goal within reach for those who combine strategic travel habits, loyalty discipline, and a proactive mindset. By staying informed, engaging with airlines, and leveraging the full spectrum of loyalty benefits, travelers can unlock a world of enhanced comfort and convenience—transforming every flight into a more rewarding journey.

Understanding the Anatomy of an Airline Upgrade

Before we dive into the 'how,' it's crucial to understand the 'why' and 'when' of airline upgrades. Airlines don't upgrade passengers out of pure altruism. It's a calculated business decision driven by a variety of factors. Primarily, upgrades are a tool to manage inventory, reward loyal customers, and

sometimes, to rectify operational issues. Knowing these drivers is key to aligning your strategies with the airline's motivations.

Why Airlines Offer Upgrades

1. **Inventory Management:** The most common reason for complimentary upgrades is when a flight is overbooked in economy or premium economy, and there are empty seats in business class. Airlines would rather have a premium seat filled by a loyal customer at no extra cost than have it sit empty.
2. **Rewarding Loyalty:** Frequent flyer programs are designed to incentivize passengers to stick with one airline or alliance. Elite status members are often the first in line for upgrades when available.
3. **Operational Reasons:** Sometimes, technical issues with an aircraft can lead to a downgrade of premium cabins. To compensate, passengers who were downgraded might be offered an upgrade on a later flight, or other passengers might be moved up to fill the void.
4. **Customer Service Recovery:** In cases of significant flight disruptions, delays, or service failures, an upgrade can be a powerful gesture to appease an unhappy passenger and retain their business.
5. **Promotional Offers:** Airlines occasionally run promotions or partner with credit card companies to offer upgrade opportunities as a perk.

When Upgrades Are More Likely

1. **Off-Peak Travel Times:** Flights during less popular times (e.g., mid-week, off-season, red-eye flights) are more likely to have empty premium seats.
2. **Less Popular Routes:** Routes with lower demand for business class seats might see more availability.
3. **Last-Minute Bookings:** While often more expensive, last-minute bookings can sometimes coincide with overbooked economy sections.
4. **Long-Haul Flights:** These flights have a higher proportion of business class seats and are more prone to inventory fluctuations.

The Pillars of Business Class Upgrade Success: Loyalty and Leverage

Your most powerful tools for securing a business class upgrade are your loyalty to an airline and its associated alliances, and the leverage you can create through various means. Think of it as building capital that you can then strategically "spend" to improve your travel experience.

1. Cultivating Elite Status: The Gold Standard of Upgrades

This is, without a doubt, the most reliable path to consistent

business class upgrades. Airlines invest heavily in their frequent flyer programs, and their most loyal customers receive preferential treatment. Achieving elite status (e.g., Silver, Gold, Platinum, Diamond) requires flying a significant number of miles or segments within a given year.

How to Earn Elite Status

1. **Accumulate Miles/Segments:** The primary way is by flying. Track your progress and choose an airline or alliance that aligns with your travel patterns.
2. **Credit Card Bonuses:** Many airline co-branded credit cards offer bonus miles that can count towards elite status, or provide benefits that make earning status easier.
3. **Elite Status Matches:** If you have elite status with another airline, you can sometimes request a status match from a different airline, especially if you're looking to switch allegiances.

Benefits of Elite Status for Upgrades

1. **Complimentary Upgrades:** As an elite member, you're often at the front of the queue for complimentary upgrades on domestic and short-haul international flights.
2. **Mileage Upgrades:** You can use your accrued miles to upgrade from economy or premium economy to business class. These are often more predictable than complimentary upgrades.

3. **Priority Waitlisting:** If business class is full, elite members are prioritized on the waitlist.
4. **Higher Upgrade Priority:** Within elite tiers, higher tiers receive higher priority.

Pro Tip: Focus your flying on one airline or alliance (e.g., Star Alliance, Oneworld, SkyTeam) to consolidate your miles and status. This is the most effective way to climb the loyalty ladder.

2. Leveraging Credit Card Perks: Beyond Just Miles

Beyond earning miles, premium travel credit cards offer a wealth of benefits that can directly or indirectly lead to business class upgrades. These cards often come with annual fees, but the perks can far outweigh the cost for frequent travelers.

Types of Credit Card Benefits for Upgrades

1. **Upgrade Certificates:** Some cards, like certain American Express Platinum or Delta SkyMiles American Express cards, offer upgrade certificates that can be used for complimentary upgrades on eligible fares.
2. **Annual Companion Passes/Free Flights:** While not a direct upgrade, these can significantly reduce the cost of travel, freeing up budget for a paid upgrade if necessary.
3. **Airport Lounge Access:** Access to business class lounges before your flight significantly enhances the premium

experience, even if you're not seated in business class.

4. **Priority Boarding:** This isn't an upgrade, but it's a taste of the streamlined travel experience.
5. **No Foreign Transaction Fees and Travel Insurance:** These general travel benefits make international travel smoother and more secure.

Actionable Insight: Research credit cards offered by your preferred airlines or general travel cards from issuers like American Express, Chase, and Capital One. Look for those that offer upgrade certificates or substantial travel credits.

3. The Art of the Paid Upgrade: Strategic Investment

Sometimes, a complimentary upgrade isn't feasible. However, airlines often offer paid upgrades at attractive prices, especially closer to the flight date or during the online check-in process. This can be a more affordable way to experience business class than booking it from the outset.

When and How to Bid or Buy

1. **Check After Booking:** Many airlines allow you to bid on upgrades shortly after booking your ticket.
2. **Online Check-in Offers:** During online check-in (usually 24-48 hours before departure), keep an eye out for "special offers" or "upgrade your seat" prompts. These can be a great

deal.

3. **Monitor Your Booking:** Periodically check your reservation online. Sometimes, upgrade offers will appear as the flight date approaches.
4. **Target Off-Peak and Less Popular Flights:** As mentioned, these flights are more likely to have upgrade availability at a reduced price.
5. **Be Realistic with Bids:** Research typical upgrade prices for your route and airline. Bidding too low will likely result in rejection.

Smart Strategy: If you're flexible with your travel dates or times, you can often find significantly cheaper paid upgrade opportunities. Consider flying on Tuesdays or Wednesdays for better pricing.

Beyond Loyalty: Clever Tactics for Gate and In-Flight Upgrades

While loyalty is king, there are still strategies to employ, particularly at the airport or even in the air, though these are generally less reliable and should be considered supplementary.

4. The Gate Agent's Smile: Charm and Courtesy

Gate agents have a degree of power, especially when it comes

to last-minute operational upgrades. A friendly, patient, and polite demeanor can go a long way.

How to Approach the Gate Agent

1. **Be Polite and Respectful:** Start with a friendly greeting.
2. **Have Your Frequent Flyer Number Ready:** Ensure it's attached to your booking.
3. **Mention Special Occasions (with Caution):** If it's a significant anniversary or birthday, politely mentioning it **might** help, but don't rely on it. Be genuine, not demanding.
4. **Inquire About Availability (Nicely):** Instead of demanding an upgrade, ask, "Is there any possibility of an upgrade to business class today?"
5. **Be Prepared for a "No":** Don't argue or become confrontational if your request is denied.

Important Note: This is a long shot for complimentary upgrades unless there's a clear operational need. However, being a pleasant passenger can sometimes lead to small gestures of goodwill.

5. Understanding Airline Alliances and Partner Airlines

Airline alliances (Star Alliance, Oneworld, SkyTeam) are crucial for maximizing your loyalty benefits. Miles and elite status earned with one airline can often be leveraged across its

partners.

How Alliances Help

1. **Earning and Redeeming Miles:** You can earn miles on partner airlines and redeem them for flights on any member airline.
2. **Elite Status Reciprocity:** Elite status with one airline often grants you benefits (like priority check-in and baggage handling) on partner airlines.
3. **Upgrade Opportunities:** If your preferred airline's business class is full, you might be able to use your miles or status to upgrade on a partner airline.

Strategic Move: If you're loyal to United Airlines (Star Alliance), you can use your miles to upgrade on Lufthansa or Swiss Air, potentially accessing different premium cabin products.

Pre-Flight Preparation: Maximizing Your Chances

The work doesn't stop once you've booked your ticket. Proactive preparation can significantly boost your upgrade odds.

6. Smart Booking Strategies

The fare class you book can impact your upgrade eligibility. Lower economy fare classes are often the last to be considered for complimentary upgrades.

Choosing the Right Fare Class

1. **Higher Economy Fare Classes:** While more expensive than the cheapest economy tickets, booking into a higher fare class (e.g., "Y" or "B" class) can sometimes make you a more attractive candidate for an upgrade if complimentary upgrades are prioritized by fare class.
2. **Premium Economy:** If available, booking premium economy can sometimes position you for a better upgrade than standard economy, especially on international routes.

Consider the Trade-off: Weigh the cost of a higher fare class against the potential for an upgrade. Sometimes, a small increase in fare is worth the improved travel experience.

7. The Power of the Waitlist

If you're aiming for a mileage upgrade or a complimentary elite upgrade, you might be placed on a waitlist. Understanding how waitlists work is crucial.

Navigating the Waitlist

1. **Check Your Status Regularly:** Monitor your upgrade status online or via the airline's app.
2. **Confirm Your Place:** Ensure you're actually on the waitlist and understand the priority order.
3. **Be Patient:** Upgrades are processed closer to departure, sometimes even at the gate.
4. **Contact the Airline:** If you have concerns about your waitlist position, a polite call to customer service might offer clarity.

The Human Element: Etiquette and Expectations

While knowledge and strategy are paramount, remember that air travel involves human interaction. Your conduct can influence outcomes.

8. Dress the Part (Subtly)

While not a guarantee, presenting yourself neatly and professionally can subtly influence perceptions, especially in interactions with gate agents or flight attendants.

What to Wear

1. **Smart Casual:** Think collared shirts, blouses, slacks, or neat

jeans.

2. **Avoid:** Beachwear, athletic attire, or overly casual clothing.

Rationale: It suggests you're a traveler who values a refined experience, which aligns with the expectations of premium cabins.

9. Managing Expectations: It's Not Always Possible

Despite your best efforts, there will be times when an upgrade simply isn't available. Flights can be completely sold out in all classes, or other factors may prevent it.

Dealing with Disappointment

1. **Acceptance:** Understand that upgrades are a bonus, not a right.
2. **Focus on What You Can Control:** Ensure you have good travel insurance, book comfortable seats in your purchased class, and enjoy the journey as best you can.
3. **Plan for Next Time:** Use the experience as a learning opportunity to refine your upgrade strategy for future trips.

Final Thought: The journey to business class is often paved with loyalty, smart planning, and a touch of strategic savvy. By understanding the dynamics of airline operations and leveraging your resources effectively, you can transform your travel

aspirations into a comfortable reality. Happy upgrading!

Questions & Answers About how to get upgraded to business class

No	Question	Answer
1	What are the most effective ways to snag a complimentary business class upgrade?	Complimentary upgrades are rare but possible. Strategies include booking during off-peak times, being a loyal frequent flyer with elite status, traveling solo on a full flight, dressing smartly, and politely inquiring at check-in or the gate. Sometimes, airlines offer them as a goodwill gesture for minor issues.
2	Can I use my airline miles or credit card points for a business class upgrade?	Absolutely! This is one of the most common and reliable ways to get upgraded. Check your airline's website for upgrade award charts or contact their customer service to inquire about using miles for an upgrade on your specific flight. Many travel credit cards also offer upgrade certificates or allow you to convert points directly.

3	Does my fare class matter when trying to get upgraded to business class?	Yes, your fare class significantly impacts upgrade chances. Full-fare economy tickets (like Y or B) are much more likely to be upgraded than deeply discounted economy fares. If you're aiming for an upgrade, consider booking a slightly higher fare class within economy for a better shot.
4	Are there specific times or routes where I'm more likely to get a business class upgrade?	Upgrades are often more common on less popular routes, during off-peak travel seasons, or on flights that are oversold in economy. Business-heavy routes during peak times may have fewer upgrade opportunities. Also, consider redeye flights, as sometimes passengers are moved for comfort.
5	How important is my appearance and demeanor when asking for an upgrade?	While not a guarantee, presenting yourself well (smart casual to business attire) and being polite, friendly, and patient can make a difference. Airline staff are more inclined to help someone who is pleasant and respectful, especially if they're looking for a way to accommodate a passenger.

6	What's the deal with 'bidding' for a business class upgrade?	Many airlines now offer upgrade bidding programs. You place a bid above a certain threshold for a chance to upgrade. If your bid is accepted, you'll be charged the amount you bid and moved to business class. This is a good option if you're willing to pay a bit extra and want to set your budget.
7	Can I improve my chances of getting an upgrade if I'm celebrating a special occasion?	Mentioning a special occasion (birthday, anniversary, honeymoon) to the airline staff, especially at check-in or during boarding, can sometimes lead to a surprise upgrade. While not a guaranteed strategy, it adds a personal touch and airlines occasionally use upgrades for such celebrations as a goodwill gesture.
