Practice Notes on Contentious Costs (Practice Notes Series) ** Contentious costs, a crucial aspect of litigation, often represent a significant financial burden for both claimants and defendants. These costs arise from the legal proceedings themselves, encompassing items such as solicitor's fees, expert witness expenses, and court fees. Understanding the principles governing their assessment and recovery is essential for parties navigating the complexities of the English civil justice system. This practice note provides a comprehensive overview, addressing key areas and practical considerations. 1. The Foundation of Contentious Costs

The primary legislation governing costs in civil litigation is the County Courts Act 1984 and the CPR (Civil Procedure Rules). These regulations aim to ensure that the successful party is awarded reasonable costs, while deterring unnecessary or disproportionate expenditure. The guiding principle is proportionality - costs should be proportionate to the value of the claim or the issues in dispute. 2. Assessing Costs - Key Principles_•

Reasonableness: **Solicitors must demonstrate that their actions and charges are reasonable in relation to the case's complexity and the specific circumstances.** • Proportionality: **Costs should directly reflect the work undertaken and the outcome of the litigation. Expenditure on complex issues should be justified.** • Causation: **Costs awarded must be directly attributable to the issues in dispute and not for matters unrelated to the claim or defense.** • Pre-action Conduct: **The court may consider the pre-action conduct of both parties when assessing costs. Unreasonable or obstructive behavior can result in a cost penalty.** • Expert Reports: **Costs associated with expert reports must be carefully justified, showing the necessity and reasonableness of the report's content and the expert's qualifications.**

3. Types of Costs and Recoverable Items **Several categories of costs are recoverable depending on the nature of the dispute and the prevailing legal principles.** • Solicitors' Fees: *This includes hourly rates, disbursements, and other expenses incurred by the legal team. The basis for charging fees should be transparent and justifiable.* • Expert Witness Fees: **Fees for expert testimony must be reasonable in relation to the expert's qualifications and the nature of the testimony provided.** • Court Fees: Court fees for proceedings and documents are included. • Travel and Accommodation:

Costs associated with attending hearings or meetings may be recoverable, provided these are reasonable. • Witness Expenses: Travel costs and any subsistence allowances for witnesses are recoverable. • Documents: Costs associated with production and obtaining documents are often recoverable. 4. The Cost Budget Implementing a cost budget early in the proceedings is crucial for managing and controlling the costs of litigation. • Contingency Planning: **Include potential costs for various scenarios, including early settlement negotiations.** • Communication: *Maintain open communication with the other party and their representatives about the costs of the case.* • Flexibility: Be prepared to adapt the budget as the proceedings unfold, reflecting the evolving complexity and direction of the dispute. 5. The Cost Assessment Process The cost assessment process can be complex. The process usually involves: • Detailed Cost Record: **A detailed account of all costs incurred is maintained.** • Disclosure and Notification: The detailed cost record must be disclosed to the opposing party and the court as per the rules. • Application for Costs: **A formal application for costs is made to the court by the successful party outlining the justification for the awarded costs.** • Consideration by the Court: **The court carefully examines the evidence and arguments presented by both parties before issuing a costs order.** 6. Practical Considerations for Parties • Early Case Management: Proactive engagement in case management

can help to manage and control costs from the outset. •

Negotiation and Settlement: **Exploring settlement options before proceeding to court can significantly reduce costs.** •

Cost Awareness: Throughout the process, all parties involved should be vigilant about their costs and their ability to control them. •

Adherence to Rules: Adhering to the strict rules and procedures of the relevant legislation and court rules is essential to ensure efficient handling of costs issues.

7. Contentious Costs in Different Courts *The application and enforcement of costs rules vary somewhat between different types of courts (county courts, High Court, etc.). Parties should consult appropriate legal advice to ensure they understand the relevant regulations.*

Key Takeaways • Contentious costs are a significant aspect of litigation, requiring careful planning and consideration. • The principles of reasonableness, proportionality, and causation are crucial for assessing and awarding costs. • A proactive approach to managing costs from the start is essential. • Clear communication and adherence to court rules are fundamental for a successful outcome.

FAQs 1. Can a party recover costs incurred in unsuccessful pre-action correspondence? **A party may be able to recover costs**

incurred in pre-action correspondence if the correspondence was reasonable and necessary for the efficient resolution of the case. The court will consider the correspondence's proportionality and the need for it.

2. What happens if a party fails to disclose costs

information? *Failure to provide proper disclosure of costs information can result in the court taking a punitive view of the party's actions, potentially leading to a reduced cost award or even penalties.* 3. How does the court determine the reasonableness of a solicitor's fees? **The court considers several factors, including the complexity of the case, the experience and expertise of the solicitor, the time spent on the case, and the prevailing market rates for similar work.** 4. What are the implications of making an unreasonable costs claim? Making an unreasonable costs claim can result in sanctions from the court, including penalties or a reduction in the costs awarded. 5. How can parties minimize their costs in litigation? Parties can minimize costs by actively participating in case management, promptly responding to court directions, engaging in early settlement negotiations, and using cost-effective dispute resolution methods.

Recurring Principles

While the specific content of any 'Contentious Costs Practice Notes Series' will vary depending on the jurisdiction and the issuing body, several core themes and recurring principles consistently emerge. These include:

1. Cost Budgeting and Management: The Proactive Approach

One of the most significant developments in recent years has been the emphasis on proactive cost management through the use of budgets. Practice notes in this area typically delineate the requirements for preparing, serving, and seeking approval for cost budgets. This includes guidance on:

1. **What constitutes a 'reasonable and proportionate' budget:** This involves detailed breakdowns of anticipated expenditure, including hourly rates, estimated time spent on various tasks, and disbursement forecasts.

4. **Costs management orders:** The implications of such orders and how they shape recoverable costs throughout the litigation.

The shift towards budgeting underscores a judicial desire to curb uncontrolled expenditure and ensure that the costs of litigation remain proportionate to the value and complexity of the dispute. Lawyers are increasingly expected to provide a clear and justified prognosis of costs from the outset, a practice that can significantly impact the overall litigation strategy and financial exposure.

Beyond budgeting and detailed assessment, practice notes often delve into more specific areas of contentious costs. These can include:

1. **Conditional Fee Agreements (CFAs) and Damages-Based Agreements (DBAs):** Guidance on the enforceability of these arrangements and how recoverability of success fees or a share of damages is treated. This is particularly relevant for **litigation funding** and associated costs.
2. **Part 36 Offers:** The interplay between Part 36 offers and costs, including the consequences of failing to beat a Part 36 offer and the calculation of additional'."
