One of the first things to consider when you want to watch *Law & Order* online is which specific series you're after. The franchise has expanded significantly over the years, creating a rich tapestry of interconnected stories. Here's a breakdown of the most popular installments:

The Original Law & Order (Seasons 1-20)

The granddaddy of them all! The original *Law & Order*, often referred to simply as "the mothership," premiered in 1990 and ran for an impressive 20 seasons before its revival. This is where it all began, introducing us to the iconic "Law & Order" format. If you're looking for the classic cases, the early investigations by Detectives Logan and Greevey, or the later iconic partnerships of Briscoe and Green, this is the series you'll want to stream.

Law & Order: Special Victims Unit (SVU)

Perhaps the most enduring and popular spin-off, *Law & Order: SVU*, has been running for over two decades and shows no signs

of slowing down. Led by the formidable Mariska Hargitay as Captain Olivia Benson, this series focuses on the detectives of the elite Special Victims Unit of the NYPD, who investigate sexually based crimes. Its long run means there's an enormous backlog of episodes to dive into, making it perfect for extensive binge-watching. Many fans start their *Law & Order* journey here, drawn to the powerful performances and impactful storytelling.

Law & Order: Criminal Intent

This spin-off offered a slightly different perspective, often focusing on the psychological motivations of the criminals. Led by Vincent D'Onofrio as the eccentric Detective Robert Goren, and Kathryn Erbe as his partner Eames, *Law & Order: Criminal Intent* delved deep into the minds of murderers and schemers. If you enjoy the "whodunit" aspect with a psychological twist, this is a must-watch. Its unique approach to crime solving sets it apart from the other series.

Law & Order: Trial by Jury

While shorter-lived than its siblings, *Law & Order: Trial by Jury* explored the judicial process from the perspective of the jury, offering a fascinating glimpse into the deliberations and decisions that lead to verdicts. It was a unique experiment in the franchise's format.

Law & Order: LA

This West Coast iteration of the franchise attempted to bring the *Law & Order* formula to Los Angeles. While it only lasted one season, it still offered the familiar procedural structure with a different geographical backdrop and cast.

Law & Order: Organized Crime

A more recent addition to the universe, *Law & Order: Organized Crime* sees the return of Christopher Meloni as Detective Elliot Stabler, reprising his role from the original *SVU*. This series follows Stabler as he returns to the NYPD to battle organized crime in the city. It offers a continuation of a beloved character's story within the familiar *Law & Order* framework.

enjoyment.
