Getting Started with InControl: Setup and Registration

To unlock the full power of InControl, the first step is to set it up and register your vehicle. This process is usually straightforward and can be done through your Land Rover retailer or by yourself if you have the necessary credentials.

Creating Your Land Rover Account

You'll likely need to create a Land Rover account online. This account serves as your central hub for managing your InControl services, linked vehicles, and preferences. Be sure to use a strong, secure password.

Registering Your Range Rover

Once your account is created, you'll need to link your Range Rover to it. This typically involves providing your vehicle's VIN (Vehicle Identification Number). For InControl Protect features, there might be an additional activation process that's often handled by your retailer.

Downloading the InControl Remote App

The InControl Remote app is your key to controlling and monitoring your Range Rover from your smartphone. It's available for both iOS and Android devices from their respective app stores. Download it and log in using your Land Rover account credentials.

Pairing Your Smartphone (for InControl Apps)

To use InControl Apps, you'll need to pair your smartphone with your Range Rover's infotainment system. This is usually done via Bluetooth. Follow the on-screen prompts on both your phone and the vehicle's display to complete the pairing process. For full app functionality, you might also need to connect your phone via a USB cable, depending on your specific InControl version and Range Rover model.

Tip: Always ensure your smartphone's operating system and the InControl Remote app are kept up-to-date for optimal performance and access to the latest features.

Exploring InControl Protect: Safety and Security First

InControl Protect is all about providing peace of mind, whether you're navigating busy city streets or venturing into remote landscapes. It's a robust safety net designed to assist you when you need it most.

Emergency Call (eCall)

In the event of a serious accident, your Range Rover can automatically trigger an Emergency Call. This call connects you to emergency services and transmits vital information, including your vehicle's location and direction of travel. You can also manually activate eCall by pressing the SOS button, typically located in the overhead console.

Breakdown Call

If your Range Rover breaks down, the Breakdown Call feature allows you to contact Land Rover Roadside Assistance directly from your vehicle's infotainment system. This streamlines the process of getting help, ensuring a prompt response.

InControl Secure (Optional Subscription)

For enhanced security, some Range Rover models offer InControl Secure, an optional subscription service. This feature provides stolen vehicle tracking. If your vehicle is stolen, you can report it to the authorities, and Land Rover's monitoring center can assist in its recovery by providing its location to the police.

Unlocking Convenience with InControl Remote

The InControl Remote app transforms your smartphone into a remote control for your Range Rover. This is where the convenience factor really shines.

Vehicle Status

Wondering if you locked your doors or if your fuel level is adequate for your next trip? The Vehicle Status feature in the app allows you to check crucial information like fuel level, door and window lock status, and mileage at a glance.

Locate My Vehicle

In a crowded parking lot or unfamiliar city? The Locate My Vehicle feature uses GPS to show you the exact location of your Range Rover on a map within the app. This can be a lifesaver when you're trying to find your car.

Pre-Heating or Pre-Cooling Your Cabin

Imagine stepping into a perfectly warm Range Rover on a frosty morning or a refreshingly cool cabin on a scorching summer day.
